

EzFill Receives Approval from Three Miami Condo Associations to Offer Fueling to Residents of 600+ Units.

Will Be Resident's Exclusive Mobile Fueling Provider

MIAMI, FL, Feb. 29, 2024 (GLOBE NEWSWIRE) — EzFill Holdings, Inc. (“EzFill” or the “Company”) (NASDAQ: EZFL), a pioneer and emerging leader in the mobile fuel industry, announced that it has received approval from three Miami Based condo associations to be the exclusive mobile fueling provider for their residents.

EzFill continues to grow its residential business in South Florida. Working with the management of these three condo associations gives the company access to the residents of approx. 638 units, at just three stops.

Yehuda Levy, EzFill’s Chief Executive Officer, commented, “beginning to service these three condo associations is a testament to our sales team’s hard work and dedication. We are proud of the team’s efforts and look forward to working with more associations as more Miami residents ditch the gas station for our convenient delivery option. Working with condo associations allows our drivers to access more customers at a singular location making their routes more efficient.”

The EzFill Condo Program is exclusively designed to cater to the fueling needs of residents in condos. With our improved technology, associations are easily able to sign up their buildings on our dedicated website, ezfl.com/condo. It's quick and straightforward. Our system notifies the valet team when our driver is enroute. There is a designated zone set aside for our drivers to provide efficient service at the locations. The resident or the Valet brings the car to the zone, the car is fueled, and re-parked.

About EzFill

EzFill is a leader in the fast-growing mobile fuel industry, with the largest market share in its home state of Florida. Its mission is to disrupt the gas station fueling model by providing consumers and businesses with the convenience, safety, and touch-free benefits of on-demand fueling services brought directly to their locations. For commercial and specialty customers, at-site delivery during downtimes enables operators to begin their daily operations with fully fueled vehicles. For more information, visit www.ezfl.com.

With the number of gas stations in the U.S. continuing to decline, corporate giants such as Shell, Exxon, GM, Bridgestone, Enterprise, and Mitsubishi have recognized the increasing shift in consumer behavior and are investing in the fast growing on-demand mobile fueling industry, in companies such as Booster and Yoshi. As the only company to provide fuel delivery in three verticals – consumer, commercial, and specialty including marine and construction equipment, we believe EzFill is well positioned to capitalize on the growing demand for convenient and cost-efficient mobile fueling options.

Forward Looking Statements

This press release contains “forward-looking statements” Forward-looking statements reflect our current view about future events. When used in this press release, the words “anticipate,” “believe,” “estimate,” “expect,” “future,” “intend,” “plan,” or the negative of these terms and similar expressions, as they relate to us or our management, identify forward-looking statements. Such statements, include, but are not limited to, statements contained in this press release relating to our business strategy, our future operating results and liquidity and capital resources outlook. Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes

in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. They are neither statements of historical fact nor guarantees of assurance of future performance. We caution you therefore against relying on any of these forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, without limitation, our ability to raise capital to fund continuing operations; our ability to protect our intellectual property rights; the impact of any infringement actions or other litigation brought against us; competition from other providers and products; our ability to develop and commercialize products and services; changes in government regulation; our ability to complete capital raising transactions; and other factors relating to our industry, our operations and results of operations. Actual results may differ significantly from those anticipated, believed, estimated, expected, intended or planned. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We cannot guarantee future results, levels of activity, performance or achievements. The Company assumes no obligation to update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this release except as may be required under applicable securities law.
